

## Is your child having a difficult time learning to write?

Children develop at different rates; therefore, their handwriting skills vary greatly. Some have trouble learning the direction of letters; others struggle to write neatly or use cursive writing.

We will conduct a **FREE PRE-SCREENING** to determine if your child is ready to participate.

### Our Pediatric Therapists Teach Prewriting/Writing Skills for children 5-7 years of age

Our goal is to provide your child with the foundational skills using sensory and kinesthetic methods by facilitating functional acquisition of hand/body awareness and sizing, spacing, and formation of prewriting shapes and forms leading to letters.

#### Program Description - Session Starting July 19 from 9:00 - 11:00 a.m.

Our pediatric occupational therapists will use fun and creative instructional methods to teach your child handwriting skills. The session ratio will be 1:3. Each session will vary, but will include the following:

-  Opening Activities
-  Sensory Activities
-  Body Orientation
-  Fine Motor Activities
-  Arts and Crafts
-  Handwriting Practice using "Handwriting Without Tears" resources
-  Closing Activities

**Cost: \$45/per session** (Total \$800) includes:

-  Initial OT Evaluation
-  6-week, 3x/week, 90-minute sessions
-  Materials
-  Parent/Caregiver Training

If you are interested in this program for your child beginning this summer, please call **(714) 289-2400**.

**Register now because space is limited.**

Give your child a head start this summer in preparation for the fall term. To register or for more information, please call **(714) 289-2400**.
